To whom it may concern

I am writing to recommend **Dhruv Ahuja**, who worked with us at **Witzeal Technologies Private Limited** and reported to me during his internship as part of the Cybersecurity team.

Dhruv has consistently demonstrated enthusiasm, strong work ethic, and commitment toward every task assigned to him. While working with my team, he proactively built a solid foundation in **networking concepts** and **Java programming**, showing continuous learning and improvement.

One notable example of his dedication was when he was guided to explore **Kali Linux** fundamentals through an online course. He completed the task with genuine interest and ensured he delivered the expected outcomes.

Dhruv is a dependable team player and a pleasure to collaborate with. His positive attitude, curiosity to learn, and ability to execute make him a valuable asset. I would gladly work with him again and would not hesitate to re-hire him in the future.

If you have any further questions, please feel free to contact me at **+91 9971020101**.

Sincerely,

Naveen Goswami
Head of Technology
